---

## TECHNICAL SKILLS

---

Languages: JavaScript, HTML, CSS

Frameworks: Node.js, React, Express, Redux, Mocha, Chai, Jasmine

Products: PostgreSQL, Umbraco5, Heroku, Postman, Redmine, NopCommerce, WordPress, Shopify, PixiJS, ViroReact, Netlify, Gatsby

---

## PROJECTS

---

**Novel Case | Developer | Live Site:** [novelcase.netlify.app](https://novelcase.netlify.app)

**January 2021-March 2021**

Collection of curated portfolio sites, built using React and PixiJS.

- Created all navigation elements, including scroll-event handlers and horizontal layout logic, resulting in a more natural experience for both mobile and desktop usage. Translated CSS effects and positioning to WebGL behavior.
- Wireframed and constructed assets and logic for appropriately and dynamically rendering across browsers.

**go.bARk | Developer |**

**October 2020**

An Augmented Reality App where the user interacts with a virtual dog, using ViroReact, React Native, Express, PostgreSQL, and Redux.

- Devised navigation and user interface.
- Engineered user experience through chained animations and interactive scenes.
- Built in haptic feedback for sign in and tug-of-war components and layered in AR raycasting to adjust game view to real-world planes.

**Chai Noon | Developer | Heroku:** [chai-noon.herokuapp.com](https://chai-noon.herokuapp.com)

**September 2020**

A mock e-commerce site selling tea products built with PostgreSQL, Express, React, Node.js, Mocha, Redux, and Chai.

- Designed different user experiences for the cart, including guest and login/OAuth merge functionality.
  - Wrote test specs for API routes and database models.
  - Converted React components to be responsively designed.
- 

## WORK EXPERIENCE

---

**Fullstack Academy**

**November 2020 - February 2021**

Software Engineer, Teaching Fellow

- Taught programming concepts, debugging techniques, and computer science fundamentals to 50+ students.
- Mentored 5 different teams and oversaw 4 web application projects from inception to completion.

**Foresters Life Insurance and Annuity Company**

**December 2015 – January 2019**

Team Leader, Inforce Services

September 2018 - January 2019

Assistant Supervisor, Inforce Services

November 2017 - September 2018

Customer Service Representative, Inforce Services

December 2015 - November 2017

- Led team of 15+ members in interdepartmental projects in a fast-paced transitioning environment.
- Successfully spearheaded cleanup of internal processes and bottlenecks, bringing open items down from 8000 to fewer than 250 in 30 days.
- Reduced average processing time of financial transactions by 3 business days, and intercarrier exchanges by 3 weeks.

**We are Immediate, Inc.**

**July 2012 – December 2015**

Marketing Associate

- Ticketed and tested bug fixes along various stages of development for new web application and assessed UX issues, leading to its second release.
  - Headed CX and led training of different Content Management Systems for web applications.
- 

## EDUCATION

---

Grace Hopper Program – Fullstack Academy

**August 2020 - October 2020**

New York University- Stern School of Business

**Graduated May 2013**

BS Management, BS Accounting
